DETAILED ACTION

This is responsive to Applicant's amendment filed on 9/21/07.

Allowable Subject Matter

Claims 1, 3-10, 12-24, and 25 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art does not disclose or suggest an electromagnetic signal processing comprising all the specific elements with the specific combination including means for optically connecting each array outputs to a subsequent array output through at least one optical delay as set forth in claims 1, 10, 18, 22; including the optical fiber arrays are arranged as a plurality of array groups, each array group has a respective array group output/input, and an array group output of one array group is connected to an input/output to another array group as set forth in claims 19 and 23; including the optical fiber arrays are arranged as a plurality of array groups, each array group has a respective array group output, and an optical switch is arranged operatively between the array group outputs and the signal detector input as set forth in claim 20; and including the optical fiber arrays are arranged as a plurality of array groups, each array group has a respective array group input, and an optical switch is arranged operatively between the array group inputs and the source of electromagnetic radiation as set forth in claim 25.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
